DIEGO SUÁREZ RAMOS

Ingeniería Informática. Computación

Fullstack Developer specialized in Java, Spring Boot, and React. Experienced in building scalable web applications with databases like Oracle and PostgreSQL. Passionate about software architecture, problem-solving, and continuous learning. Also worked on AI algorithm translation and parallel computing.

Competencies

- Leadership
- Teamwork
- Conflict Resolution
- Active Listening
- Self-taught
- Determination
- Driver's License
- Own Vehicle

Professional Skills

- Fullstack Development: Experience with Java, Spring Boot, React, Thymeleaf, Oracle, and PostgreSQL.
- Problem-Solving & Optimization: Focused on software performance, scalability, and efficient system design.
- Teamwork & Leadership: Strong collaboration, conflict resolution, and adaptability in dynamic environments.

Experience

Denodo
Junior Java Developer
Developed scalable solutions with Java, Spring Boot, and Thymeleaf.

University of A Coruña
Collaboration Grant - Computer Engineering Dpt.
AI Algorithm Optimization, Python to C Translation, Parallelization, High-Performance Computing

Education

Universidad de A Coruña
Computer Engineering - Computing.
2020-2025
GPA: 8.53
Honors Distinctions:
Calculus, Legislation and IT Security, Internet and Distributed Systems, Statistics, Algorithms, Databases, Computer Fundamentals, Computer Architecture

Languages

- Spanish. Native
- Galician. Native
- English. intermediate
