

## Computer Engineering

Fullstack Developer specialized in Java, Spring Boot, and React. Experienced in building scalable web applications with databases like Oracle and PostgreSQL. Passionate about software architecture, problem-solving, and continuous learning. Also worked on AI algorithm translation and parallel computing.

## Competencies

- Leadership
- Teamwork
- Conflict Resolution
- Active Listening
- Self-taught
- Determination
- Driver's License
- Own Vehicle

# DIEGO SUÁREZ RAMOS

## Professional Skills

- Fullstack Development: Experience with Java, Spring Boot, React, Thymeleaf, Oracle, and PostgreSQL.
- Problem-Solving & Optimization: Focused on software performance, scalability, and efficient system design.
- Teamwork & Leadership: Strong collaboration, conflict resolution, and adaptability in dynamic environments.

## Experience

- **Denodo (April 2024 - present)**  
**Product Developer (April 2026 - present)**  
Fullstack Development, Java, Spring Boot, React, Thymeleaf, Databases  
**Junior Product Developer (April 2024 - April 2026)**  
Developed scalable solutions with Java, Spring Boot, and Thymeleaf.
- **University of A Coruña (Nov 2022 - May 2023)**  
**Collaboration Grant - Computer Engineering Dpt.**  
AI Algorithm Optimization, Python to C Translation, Parallelization, High-Performance Computing

## Education

- **Universidad de A Coruña**  
**Computer Engineering - Computing.**  
**2020-2025**  
**GPA: 8.5**  
**Honors Distinctions:**  
Calculus, Legislation and IT Security, Internet and Distributed Systems, Statistics, Algorithms, Databases, Computer Fundamentals, Computer Architecture
